DOCUMENTATION

HOW TO START?

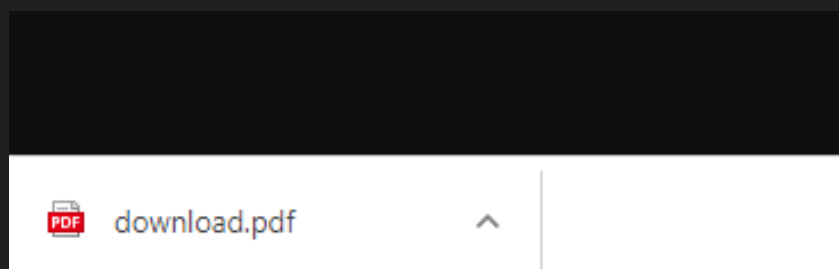

Da Vinci Font Creator is a Website where you can create a magic PDF simulating how Loeonardo Da Vinci wrote all his journals.

First Step

As you can see, there is a text box below the presentation. You should put your text in this one and click on "Covert to PDF" button. Then, your computer will dowload the file as "download.pdf" automatically, this is your magic PDF file.

HOW TO READ?

Second Step

Once the paper is printed, it's important that you use a mirror for reading. Put your paper in front of the mirror and turn it 180°. After this, you are able to read your magic text, from left to right and from the bottom up.

simplicity is the ultimate
sophistication
